Thank you Mr. Snyder. I checked with our Mon Valley engineers and you are correct that we have the February 2016 pictures – sorry for not being clearer. Thanks again.

Mr. Hacker,

Enclosed please find two files. The first file contains the visible emission reading sheets for all readings taken by EPA in 2016 at Edgar Thomson. The second file contains all pictures taken by Mr. Hagedorn of EPA during his 3/9/16 observations.

We are looking for the pictures taken during the February 2016 inspection. The inspection report for that inspection contains an attachment listing all the photographs taken during the inspection. Would you please check with your clients to be certain that they did not already receive all the photos from the February 2016 inspection? If not, we will try to send those immediately. Thanks.
